COLOR TECHNOLOGY

BRIGHTER COLORS, LONGER.

Belgard® uses a variety of cutting edge technologies to improve product durability and make sure colors stand the test of time. Through the use of proprietary admixtures and in-line treatments, we are able to protect our products from the very beginning, during the manufacturing process.

TRUECOLOR™

Enhances Color & Durability

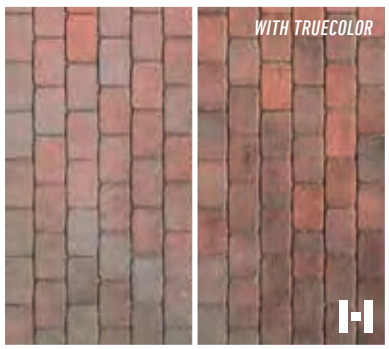

Durability | UV Resistance | Stain Resistant | Enhanced Color

WHAT IS TRUECOLOR?

TrueColor is a treatment infused during the manufacturing process to deliver a lifetime of quality. Each paver is carefully treated for enhanced color, improved durability, and increased protection against extreme weather. To create an easily maintained surface that keeps the pavers rich and bright, TrueColor deflects harsh UV rays, repels water, and limits wear and tear. By choosing a pre-sealed paver, future fading and staining is avoided. So that season after season, and year after year, TrueColor pavers continue to look new. That's our Pre-Sealed Promise. That's TrueColor.
